

## Training Modules

### Agenda Item Overview

The aim of the agenda item is to review the progress of the training modules and approve a) the session at the glances and b) the communication plans.

### 12th Steering Committee meeting, approval of the projects (October 2012)

30 minutes is dedicated for the presentation and discussions of each training module.

- The project leaders will present activities and changes based on the comments received before the SC12.
- Each project leader is also expected to present a communication plan of the training module (see Annex 1).
- Steering committee members are asked to provide their additional comments on the material and their approval of the training programme structure and session-at-a-glances. SC members are also asked to share their possible contributions to the communication plan.

### Enclosure

Materials of the training modules:

- Training module on forestry (Indonesia)
- Training module on mining (Tanzania)
