

Expand tools to keep water and waste alive

- Web-pages to Focus on Water and Waste

1. Progress to date:

1. a. Research and activities completed

We have made a rough outline of categories to be included on the web pages (see additional comments). We have received inventories of existing information concerning water and waste on WGEA website from the WGEA Secretariat in Canada. The collection of supplementary information on water and waste is in progress.

1. b. Information request

We would like to have comments on our proposed categories – are they suitable?

1. c. Subcommittees

Not applicable.

2. Future steps:

| | Action | Date |
|---|---|---------------|
| 1 | Define the categories for the website | November 2005 |
| 2 | Fill the categories with useful material available on water and waste | December 2005 |
| 3 | Send list with the Web links to the Office of the Auditor General of Canada | December 2005 |

3. Additional comments:

Proposed categories for WATER:

- Auditing water issues
- WGEA Information on water
- Speeches & briefing notes from the WGEA and regional WGEAs

- **Environmental Audit Reports on Water**
 - Subcategories
 - Salt water (marine pollution)
